

Hemodynamic and neurohumoral effects of continuous infusion of levosimendan in patients with congestive heart failure. 

Sawsky MT, Colucci WS, Gottlieb SS, et al. 
Acute hemodynamic and clinical effects of levosimendan in patients with severe heart failure. 

**RIGHT VENTRICULAR FAILURE**

Russ MA, Prondzinsky R, Carter JM, et al. 
Right ventricular function in myocardial infarction complicated by cardiogenic shock: improvement with levosimendan. 

Comparative effects of levosimendan and dobutamine on right ventricular function in patients with biventricular heart failure. 
Heart Vessels 2009;24:16-21.

Effect of levosimendan on right ventricular systolic and diastolic functions in patients with ischaemic heart failure. 

Safety and effectiveness of levosimendan in patients with predominant right heart failure. 
Herz 2008;33:368-373.

Parissis JT, Paraskevaidis I, Bistola V, et al. 
Effects of levosimendan on right ventricular function in patients with advanced heart failure. 
Am J Cardiol 2006;98:1489-1492.

Mebazaa A, Karpati P, Renaud E, Algotsson L. 
Acute right ventricular failure - from pathophysiology to new treatments. 

**INTERMITTENT ADMINISTRATION**

Assessment of quality of life using three activity questionnaires in heart failure patients after monthly, intermittent administration of levosimendan during a six-month period. 
Hellenic J Cardiol 2009;50:269-274.

Parle NM, Thomas MD, Dembo L, et al. 
Repeated infusions of levosimendan: well tolerated and improves functional capacity in decompensated heart failure - a single-centre experience. 

Mavrogeni S, Giamouzis F, Papadopoulou E, et al. 
A 6-month follow-up of intermittent levosimendan administration effect on systolic function, specific activity questionnaire, and arrhythmia in advanced heart failure. 
J Cardiac Fail 2007;13:556-559.

Parissis JT, Adamopoulos S, Farmakis D, et al. 
Effects of serial levosimendan infusions on left ventricular performance and plasma biomarkers of myocardial injury and neurohormonal and immune activation in patients with advanced heart failure. 
Heart 2006;92:1768-1772.

Efficacy and safety of intermittent, long-term, concomitant dobutamine and levosimendan infusions in severe heart failure refractory to dobutamine alone. 

Preliminary clinical experience with the repetitive administration of levosimendan in patients with end-stage heart failure. 
Ital Heart J 2003;4(Suppl 2):45S-49S.

**RENSAL FUNCTION**

Effect of levosimendan in patients with severe systolic heart failure and worsening renal function. 
Arq Bras Cardiol 2012;98:537-543.

Effect of severe renal failure and haemodialysis on the pharmacokinetics of levosimendan and its metabolites. 

Yilmaz MB, Yalta K, Yontar C, et al. 
Levosimendan improves renal function in patients with acute decompensated heart failure: comparison with dobutamine. 

Levosimendan improves renal function in patients with advanced chronic heart failure awaiting cardiac transplantation. 

**CARDIAC SURGERY**

Sponga S, Ivanitskaia E, Potapov E, et al. 
Preoperative treatment with levosimendan in candidates for mechanical circulatory support. 

Levosimendan versus an intra-aortic balloon pump in adult cardiac surgery patients with low cardiac output. 

Levosimendan reduces heart failure after cardiac surgery – a prospective, randomized, placebo-controlled trial. 

Preoperative levosimendan infusion in combined aortic valve and coronary bypass surgery. 

ISCHAEMIC HEART DISEASE

Russ MA, Prondzinsky R, Christoph A, et al.

Garcia Gonzales MJ, Dominguez Rodriguez A.

INTENSIVE CARE/ANAESTHESIA

Levosimendan for resuscitating the microcirculation in patients with septic shock: a randomized controlled study. Crit Care 2010;R232. [Epub ahead of print].

Pinto BB, Rehberg S, Ertmer C, et al.

Sterba M, Banerjee A, Mudaliar Y.

Toller W, Knez I.

PAEDIATRICS

▶ De Carolis MP, Piastra M, Bersani I, et al.
Levosimendan in two neonates with ischemic heart failure and pulmonary hypertension. Neonatology 2012;101:201-205.

Suominen PK.

Acute effects of levosimendan on cerebral and systemic perfusion and oxygenation in newborns: an observational study.

Initial experience with levosimendan infusion for pre-operative management of hypoplastic left heart syndrome.
Pediart Cardiol 2010;31:166-167.

Levosimendan in congenital cardiac surgery: a randomized, double-blind clinical trial.

Hitz MP, Bertram H, Köditz H, et al.
Levosimendan for bridging in a pediatric patient with Alström syndrome awaiting heart-lung transplantation.
Clin Res Cardiol 2008;97:846-848.

Margossian R.
Contemporary management of pediatric heart failure.

First experiences with intraoperative levosimendan in pediatric cardiac surgery.

Lechner E, Moosbauer W, Pinter M, et al.
Use of levosimendan, a new inodilator, for postoperative myocardial stunning in a premature neonate.

Levosimendan for low cardiac output: a pediatric experience.

Namachivayam P, Crossland DS, Butt WW, et al.
Early experience with levosimendan in children with ventricular dysfunction.

Successful treatment of dilative cardiomyopathy in a 12-year old girl using the calcium sensitizer levosimendan after weaning from mechanical biventricular assist support.

Treatment of acute heart failure in an infant after cardiac surgery using levosimendan.

Turunlahti M, Boldt T, Palkama T, et al.
Pharmacokinetics of levosimendan in pediatric patients evaluated for cardiac surgery.

META-ANALYSIS

Effects of levosimendan on mortality and hospitalization. A meta-analysis of randomized controlled studies.

Maharaj R, Metaxa V.
Levosimendan and mortality after coronary revascularisation: a meta-analysis of randomised controlled trials.
Crit Care 2011;15:R140.

Levosimendan for the treatment of acute severe heart failure: a meta-analysis of randomised controlled trials.
Int J Cardiol 2010;138:281-289.

Reducing mortality in cardiac surgery with levosimendan: a meta-analysis of randomized controlled trials.

Minerva Anestesiol 2010;76:276-286.

Levosimendan reduces cardiac troponin release after cardiac surgery: a meta-analysis of randomized controlled studies.

HEALTH ECONOMICS

Fedele F, D’ambrosi A, Bruno N, et al.

Hospital costs for treatment of acute heart failure: economic analysis of the REVIVE II study.

MISCELLANEOUS / REVIEWS
